NEW HOMES IN RANCHO CUCAMONGA

A Connected Living EXPERIENCE

Life today is unique, with modern technology that brings about new ways to connect with each other and even your home. That's why fast and reliable Internet with enough bandwidth to power all your devices is essential. With state-of-the-art gigabit connectivity, you can stream a new movie without waiting for it to buffer, play lag-free online games, download large files within seconds and have crystal-clear video conferences. Whether it's for work or play, it's all possible all at once.

HIGH-SPEED INTERNET SERVICE

Community thrives on connection, and the City of Rancho Cucamonga recognizes that. Partnering with Inyo Networks, the City is proud to provide businesses and residents with access to Rancho Fiber.

With this fiber-optic service available at The Resort, you can experience revolutionary high-speed Internet at home and throughout the community. It's the ideal place to live, work from home and experience true connectivity.
